Dear Philip

Re: Provision of Council's Vehicle Fleet

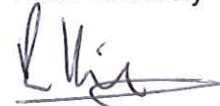

The implementation of the Council's Waste Strategy is now well underway and things are progressing very well with our new recycling and food waste collections.

The smooth transition to the revised service has been greatly enhanced by the way in which C P Davidson assisted us prior to and after the delivery of the new fleet. I acknowledge that your staff have made a significant contribution to ensuring an efficient transition to the new contract, often under demanding circumstances and I would like to offer my sincere thanks to all the team at CPD who have made this possible.

The service that CPD has provided the Council to date, through what could only be described as challenging times, supports the decision to appoint you as our vehicle provider and partner.

I hope that this encouraging start bodes well for the future and that the partnership continues to be mutually beneficial.

Yours sincerely

Richard Kirk
Interim Corporate Head of Environment & Waste Management
